MALOCCLUSIONS IN ALL
DIMENSIONS: CROWDING AND
SPACING, DEEBITE AND OPENBITE,
CLASS II AND CLASS III”**

**PRESENTED BY:
DR. BART IWASIUK**

**THE INGLESIDE HOTEL
PEWAUKEE, WI**

**ATTENDEE
REGISTRATION**

FEATURED PRESENTATION:

Aligner Correction of Malocclusions in all Dimensions: Crowding and Spacing, Deepbite and Openbite, Class II and Class III

PRESENTED BY: DR. BART IWASIUK

Every Patient presents with a combination of conditions requiring correction. Orthodontists are responsible for developing a solid orthodontic plan for individual patients: and then expected to adapt and modify the aligners to treat patients with a variety of malocclusion, in an efficient and effective manner.

Course Objectives:

- Learn the difference between an orthodontic plan and a ClinCheck plan.
- Learn how to set up Class II and Class III elastics, and how to use them differently in deepbites versus openbites.
- Identify the types of malocclusions that treat better and faster with aligners, and how to combine aligners with braces in combination treatments for those who may not be best served with full aligner treatment.

About the Speaker:

Dr. Bart Iwasiuk has been in private practice since 2002 and using Invisalign since his residency training. He achieved Elite Provider status in 2012, and continues to push the limits of what can be accomplished using Invisalign aligners. He received his DDS from the University of Toronto and his Orthodontic Certification from the University of Rochester. His interest in multidisciplinary dentistry stems from spending two years at the University of Washington and being influenced by the Seattle Study Club. He is a Key Note Speaker, Research consultant and a member of the Key Opinion Leaders for Align Technologies. With advancements of Aligner products aimed at growing patients he is also a Member of the Global Growing Patient Speaker Group and the North American Mandibular Advancement Clinical Expert Panel.
